Euroair Pure Air

DRIVE HOME GOOD HEALTH

CAR AIR PURIFIER

PCO and Multi-purification Filter

THANK YOU FOR CHOOSING THIS PRODUCT.
PLEASE READ CAREFULLY BEFORE USE.

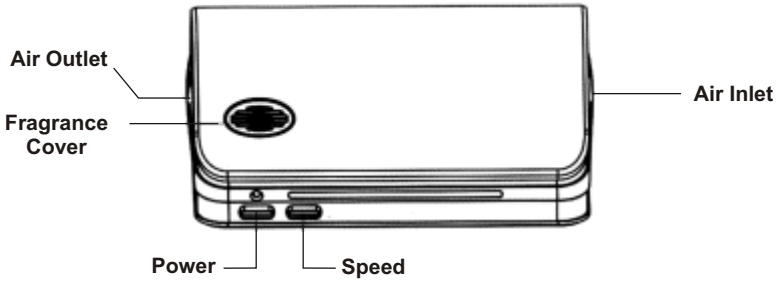
USER MANUAL

IMPORTANT SAFETY INSTRUCTIONS

PLEASE READ THESE SAFETY INSTRUCTIONS BEFORE USING THIS PRODUCT. KEEP THEM AVAILABLE FOR FUTURE REFERENCE.

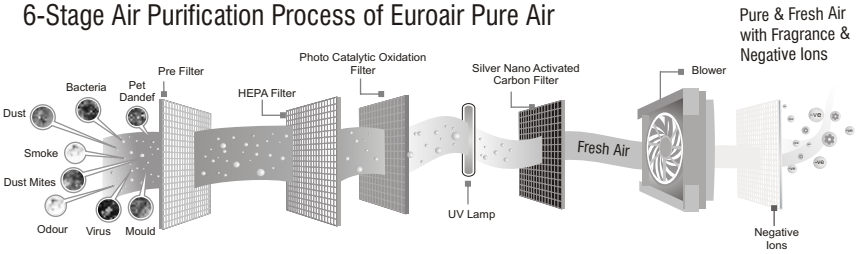
1. Do not use the unit in termperature exceeding 159 degrees Fahrenheit or 70 degrees Celsius.
2. This unit works on DC12 Volts. Applying a higher voltage may cause a fire hazard or electric shock.
3. Always place the unit on a dry, level surface.
4. The unit is intended for use in a vehicle, desktop and children's room.
5. To reduce the risk of electric shock, do not expose the unit or flexible cord to moisture in any way.
6. Always switch off and unplug the unit to avoid electric shock before cleaning or replacing filters.
7. Do not attempt to disassemble the unit other than to replace filters.
8. For best results and optimum Ionization, do not place the unit on a metal surface.
9. Do not operate if the unit is damaged in any way.
10. Do not allow children to use it as a toy.
11. Do not insert metallic items of any type into this unit.
12. Do not wet or soak the unit. Clean only with a light soft cloth slightly dampened with water, and allow it to dry before using it again. Never use solvents or other chemicals.
13. Do not use in places where flammable or explosive materials are stored.
14. Do not let the unit sit in direct sunlight or near high temperature objects.
15. Store the unit in a cool, dry place when it is not in use.

IMPORTANT SAFETY INSTRUCTIONS



AIR CLEANING PROCEDURE

6-Stage Air Purification Process of Euroair Pure Air



The polluted air is drawn in from the right side and purified as described below:

① **Pre Filter** filtrates large particles to prolong the lifespan of the Hepa Filter.

② **HEPA** - The High Efficiency Particulate Air Filter retains up to 99.97% of the most penetrating air borne particles like dust, pollens, mould, bacteria etc.

③ **Photocatalyst Filter** works with UV Light to break down and destroy poisonous fumes, VOCs, odours, germs, viruses, bacteria, mildew and fungus.

④ **Ultraviolet Light (254mm)** kills bacteria and viruses.

⑤ **Nano Silver Activated Carbon Filter** kills many types of germs, viruses, fungi and bacteria. It also eliminates odours, and unpleasant smell.

⑥ **Ionizer** generates negative ions in large quantities to keep the air fresh at all times, so you always breathe in pure air.

OPERATING INSTRUCTIONS

IMPORTANT

DO NOT OPERATE THE UNIT WITHOUT FILTERS AND UV LIGHT INSTALLED

1. One Pre Filter, one HEPA Filter, One Ultra-violet Light, One Silver Nano Activated Carbon Filter and One Photocatalyst Filter are pre-installed. There is nothing further to install in order to start using the unit.
2. To use the built-in Aromatherapy function, press the cover in to release the tray then add the essential oil of your choice to the cotton pad and push the tray into the unit.
3. Plug the adapter into the proper power source.
4. Press the ⏻ button to turn the unit ON and the LED on the upper side will glow RED. Press the ⏻ button again to turn the unit OFF and the LED Light will also turn OFF. The Ionizer and UV Light will always be on when the power for the unit is turned ON.
5. Press the ↷/↷ button to adjust the airflow to HIGH (Green indicator) or LOW = (Blue indicator).

PLEASE NOTE:

- For quick air cleaning, set the Speed Control to HIGH setting. After about 30 minutes, set the Speed Control to the LOW speed setting
- To maintain fresh air at all times, set the Speed Control to LOW speed setting. The unit uses very little electricity
- For quiet use in the evening, set the Speed Control to LOW speed setting

MAIN FEATURES

Combing the advanced technologies of PCO and Multi-layer Filter.

Euroair Pure Air reduces air pollution caused by dust, germs, bacteria, harmful gases, smoke, odours and vehicle exhaust.

DETAILED FEATURES

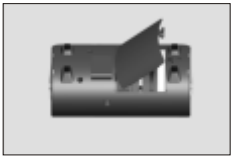
1. **Pre Filter:** It filtrates large particles to prolong the lifespan of the Hepa Filter.
2. **HEPA Filter:** Traps particles as small as 0.3 microns (Allergens, Pollen, Dust, Smoke, Pet Dander, etc.)
3. **UV Light and Photocatalyst Filter:**
   - Breaks down poisonous fumes and VOC's i.e. formaldehyde and ammonia
   - Kill germs, virus and bacteria
   - Kill mould, mildew and fungus spores
   - Eliminate the smell of smoke, and other annoying odours
4. **Silver Nano Activated Carbon Filter:** Kills many types of germs, virus, fungi and bacteria. It also absorbs smoke and odours.
5. **Negative Ions:** Known as 'Air Vitamin'. More than 5,000,000 anions per cubic centimetre to improve air quality and create a more natural and healthy environment.
6. **Aromatherapy:** Add the essential oil of your choice.

TECHNICAL SPECIFICATIONS	
Voltage	DC 5V / DC 12V
Power Consumption	$\leq$6 W
Net Weight	320 g
Dimensions	190 mm x 125 mm x 68 mm
Efficiency Area	180 Sq.ft.
Motor Life time	$\geq$50000 h
Working Environment	Temp. 0-100 Humidity < 80% RH
UV Light	Wavelength: 254nm: Lamp Life: 20,000h
Airflow:	15CFM/25CMH (High), 9CFM/CMH (Low)
Ionizer	5 million ions / cm^3

MAINTENANCE INSTRUCTIONS

REPLACING THE FILTER

1. Remove and replace the Pre Filter, HEPA Filter, Silver Nano Activated Carbon Filter at least every 6 months; and Photocatalyst Filter at least every 12 months.
2. The life of the filter is affected by the extent of use and the concentration of pollutants in the air.
3. When replacing the filter, please follow the instructions given below:



Open the back cover.

Replace the filters.

ADDING THE AROMATHERAPY OILS (OPTIONAL)

1. Please add the fragrance according to the following instructions:

Press the Fragrance Cover in and let it pop out again.

Add the Essential oils(s) of your choice to the cotton pad.

2. Refill / Replace the Fragrance Pad at least every 45 days, according to the following instructions:

Press the Fragrance Cover.

Replace the Cotton Pad.
